Oseni@Kayode-HP MINGW64 ~/Development/freeCodeCamp/backend development and apis/managing packages with npm (main)
$ git rm -d boilerplate-npm/
error: unknown switch 'd'
usage: git rm [<options>] [--] <file>...

    -n, --dry-run          dry run
    -q, --quiet            do not list removed files
    --cached              only remove from the index
    -f, --force            override the up-to-date check
    -r                    allow recursive removal
    --ignore-unmatch      exit with a zero status even if nothing matched
    --pathspec-from-file <file>
                          read pathspec from file
    --pathspec-file-nul   with --pathspec-from-file, pathspec elements are separated with NUL character
